Bettembourg, 14.08.2008

Dear Mr. Huang,

as per your request we hereby confirm that we use the ECO-SPIN product D400 in our trucks type Volvo and Mercedes since more than 3 years. This product enabled us to save 7,5% of the fuel which is about EUR 5.500.- per truck every Year.

As for the exhaust reductions, our measuring displayed more than 10% less of pollution.

We further confirm that the ECO-SPIN product has never caused any damage to our trucks and from our point of view the product is therefore save for using.

We wish you that you are satisfied with this product as same as we are.

Yours sincerely

TerraVia S.A.
